Index

Volume 48, 1992

Main Articles

Some factors affecting albumen quality with particular reference to Haugh unit score
K. C. Williams 5

Evaluation of the potentials of new scientific developments for commercial poultry breeding
W. Hartmann 17

Incubation temperature as a management tool
E. Decuypere and H. Michels 28

Accessory reproductive fluids and organs in male domestic fowl
Norboru Fujihara 39

Pre-incubation holding of hatching eggs
R. Meijerhof 57

Manipulation of egg yolk cholesterol – a physiologist's view
H. D. Griffin 101

Intermittent lighting regimes and mortality rates for laying hens
P. D. Lewis, G. C. Perry, T. R. Morris and M. M. Midgley 113

Development of diluents for domestic fowl semen
S. M. Bootwalla and R. D. Miles 121

Landmarks in the history of poultry bone biology
A. S. Sykes 129

Jungle fowl–domestic fowl relationships: a use of DNA fingerprinting
P. B. Siegel, A. Haberfeld, T. K. Mukherjee, L. C. Stallard, H. L. Marks, N. B. Anthony and E. A. Dunnington 147

Response of layers to ahemeral light cycles incorporating age at application and changes in effective photoperiod
M. M. Shanawany 156

Feed resources for poultry production in Asia and the Pacific, II. Plant protein sources
V. Ravindran and R. Blair 205

Principles, problems and application of amino acid digestibility in poultry
Raymond J. Johnson 232

Inclusion body hepatitis – anaemia and hydropericardium syndromes: aetiology and control
Barrett S. Cowen 247

Processing and utilization of spent hens
N. Kondaiah and B. Panda 255

Short Reviews

Influence of feed on carcase composition and quality
J. K. S. Round 69

Bacterial pathogens in animal feed and their control
M. Hinton and G. C. Mead 72

Working Group Report

Combined Summary of European Random Sample Egg Production Tests Completed in 1990 269

Summaries

French 74, 165, 271
German 75, 172, 273
Spanish 78, 175, 275
Russian 82, 179, 277
